FREE CHRISTMAS TREE RECYCLING

Reuse your Christmas tree by turning it into useful mulch. Area residents can easily have their trees mulched by placing the tree at the curb or bringing it to a designated drop-off location. Refer to the list below to find the option for your area. **All trees should have tinsel, ornaments, lights and garland removed.** You may use a plastic bag to transport the tree to the curb or the drop-off, but you must remove the bag.
